

# Life in the Labyrinth

---

## Chapter 16 – Part 2

7:08 [beckysunnybrook](#): it's handy

» great, word search found the place.

- 7:10 [lost\\_horizon](#): David said.. "More and more love is coming out of me, but I don't want to inflict it upon others"

» Is this increase in love in individuals the process of bringing creation to life from within?

» or part of it?

» and.. is it in us or just something present of its own accord that we may be able to participate in?

- 7:12 [jim\\_h](#): the request is similAr to the benefit of all beings
- [beckysunnybrook](#): "the classical gasp"
- [hawklady](#): okay now i got chat, thanks path
- [pathworld](#): yw hawk
- [beckysunnybrook](#): "timing has to be exact"
- [jim\\_h](#): is the unawakend hbm similar to dead creation which needs to be Awakened by the E self?
- [mollymidway](#): ""We work to overcome our fears of seeing the horror of the situation and to achieve the Heart of the Labyrinth where we are able to perform a special kind of work, view the Creation as a whole, and put life into it, if only momentarily."
- [lost\\_horizon](#): (Jim.. that comparison is made later in the chapter)
- [mollymidway](#): i think so Jim
- [lost\\_horizon](#): (seems to be the same only worse, lol)
- [hawklady](#): yes
- [beckysunnybrook](#): it's alive! (words from young Frankenstein)
- [jim\\_h](#): a matter of scale Lost
- [lost\\_horizon](#): and quality also?

» (speaking from vast inexperience...)

- [jim\\_h](#): ?
- [lost\\_horizon](#): just seems like the "dead creation" is a lot "deader" to the absolute than the walking-around HBM is to the essence
- [beckysunnybrook](#): from least dense to most dense crystalline worlds

» flows from above to below.

- [mollymidway](#): "it's alive" ...as expressed in young Frankenstein might be hard for us to take, whereas dead might be hard for the absolute to take?
- [lost\\_horizon](#): but that could be (as I said) just due to my limited perspective
- [beckysunnybrook](#): (it is a huge gap)
- [auriah](#): THANKS Sinny! OMG I forgot it was Wednesday!
- [beckysunnybrook](#): (that snap of the lever and the jolt flows)

- [lost\\_horizon](#): Hi, Auriah
- [sinhog](#):
- [auriah](#): HI everyone!!!
- [hawklady](#): hi au
- [auriah](#): hi lost
- [mollymidway](#):

- [mollymidway](#): (hello riverside friends...i'm drifting back to my years riding the 93 bus in sacramento" almost reaching the library,..
- [auriah](#): nice molly
- [beckysunnybrook](#): "Lots of wonderful tomes in that library"
- [lost\\_horizon](#): (the number 93 bus? heh heh... nice)

» he's reading...

» flamingo

- [waynenagy](#): flamenco
- [mollymidway](#): lol
- [auriah](#): For a long time I thought there was a specific way to do prayer absolute, and had a specific look - to be the same for everyone instead of looking different for everyone
- [sinhog](#): Death of Ego
- [beckysunnybrook](#): man on cross

- [lost\\_horizon](#): lol Hawklady
- [beckysunnybrook](#): that is the way to be, still and silent

» man on cross

- [jim\\_h](#): flamenco unites earth with sky
- [beckysunnybrook](#): The dancer does do that, unites
- [sinhog](#): No one stands in the Face of God ,, and lives -- EJ Gold
- [auriah](#): yes
- [hawklady](#): sinhog, stand? you mean in front of him?
- [sinhog](#): in front ,, yes
- [beckysunnybrook](#): I love flamenco dancers!
- [lost\\_horizon](#): ("No man shall see God and live" I have heard before from somewhere)
- [sinhog](#): in the presence of ,,,
- [hawklady](#): ah but if you are there, you are then God yourself, life in this form is elemental at that time. what u think
- [sinhog](#): it is a play on words , in a sense ,,by EJ

» ( not familiar with "Elemental " , Hawklady „sorry )

- [hawklady](#): sherlock homes

» i guess i was playing on words as well,

- [jim\\_h](#): affirming denying & reconciling forces
- [mollymidway](#): (flamenco dancing delights us, and i bet that means the Absolute benefits..)

» delight playful elemental, watson

» "we are left wondering"

- [lost\\_horizon](#): sound is still ok here
- [jim\\_h](#): the dancer brings down the energy with arm and hands - feet ground the energy
- [beckysunnybrook](#): ha! Elemental my dear Watson! Nice!
- [mollymidway](#): ok...i may have blown it...i'll reboot, it knocked this computer off the receipt of the transmission, they say i typed too fast
- [beckysunnybrook](#): There's always the waterfall..mystery
- [sinhog](#): may only be a Justin thing Molly ,, keep typing
- [mollymidway](#): back

» gotta slow down, i guess

» as big as inner tubes!

- [lost\\_horizon](#): could be one form of the creation, Becky
- [hawklady](#): looking up at you and saying, i'm here for you, take a bite
- [mollymidway](#): (i first had the vibratory space consciously care/of my childrens' dentist when i was a little one...nitrous oxide--and elemental situation

» nitrogen and oxygen, i guess)

- [lost\\_horizon](#): nox it's called, isn't it
- [sinhog](#): I first saw humans as Bugs , under Nitrous

- [mollymidway](#): (wow, sinhog...i just stared into the light and fell into the elevator music)
- [beckysunnybrook](#): Im going to walmart
- [lost\\_horizon](#): << EJ tells a story of a man who was at the gates of heaven.. he keeps falling asleep and missing the opening, only to be awakened by the gate slamming shut

» Finally he figures out to fall asleep against the gate

- [sinhog](#): my experience was at the dentist too ,, I opened my eyes ,, and instead of the dentist and his assistant >>

» I saw two giant bugs standing over me

- [lost\\_horizon](#): "Practicing always" is "leaning against the gate"
- [auriah](#): i have moments of wonder coming in all day long as I stand in front of my class to teach art, and they actually pay attention
- [beckysunnybrook](#): To be alone. That says it all.

» Bull dogged attention falls asleep

- [mollymidway](#): gosh, just lean on that gate
- [auriah](#): I am in wonderment at what i am going to say, what I do say and how through not seeking control, though my ego wants it, it flows effortlessly
- [sinhog](#): yes, Auriah ,, teaching must be a real "Presence" activator
- [lost\\_horizon](#): Nice, Auriah
- [auriah](#): also in wonderment of hte spaces i stand in
- [beckysunnybrook](#): Love to meet those angels at the gates at walmart
